Flushing Schedule

The Flush Boxes will be programmed to flush so that the flushing pattern is in a general west to east pattern. This moves the water away from the Water Plant in a progressive manner. Boxes in Zone 1 will flush 1 time per week, boxes in Zone 2 will flush 2 times per week, and boxes in Zone 3 will flush 3 times per week.

Boxes will be set to flush in the early morning hours so as not to inconvenience residents in the flushing areas. Boxes in Zone 1 will flush on Sundays, boxes in Zone 2 will flush on Mondays and Thursdays, and boxes in Zone 3 will be scheduled to flush throughout the week so as to have only three flushing during any given flushing period.

Boxes will flush for 30 to 45 minutes per event and be programmed so that no more than three are flushing at any one time. As new Flush Boxes are installed they will be inserted into the flushing schedule according to which Zone they are located in.
